Our Mission

Our mission is to serve local Chinese and Chinese American communities by providing educational resources and funding for students of Chinese descent studying drama or acting; holding an unwavering commitment to provide the local communities with high-quality content and culturally accurate depiction of Chinese history, and creating authentic stories that reflect Chinese American history and lived experiences.

Time Theater Collective

The Wilderness

Stage Play in Orange County. CA

About TTC

Time Theater Collective is the expression of a vision by award winning Chinese actor, Peter Jia (贾一平). In 2022, Peter assembled a group of local Chinese/Chinese American community leaders and entrepreneurs in Orange County, California who shared his vision and passion for filling an important gap of theater in the experience of Chinese/Chinese Americans living in the US.

How does TTC support the Chinese/Chinese American community?

- Bring classic authentic Chinese stories to the stage in the US.
- Create opportunities for aspiring Chinese/Chinese American actors to perform on stage.
- Create opportunities for aspiring Asian screenplay writers to tell their stories on stage.
- Create a network of professional Chinese/Chinese actors to mentor and support aspiring actors.
- Offer scholarship opportunities for Chinese/Chinese American students studying drama and/or training to be actors.

Our Vision

We strive to create and tell classic and untold stories of the Chinese people through theatrical arts. Through theatrical performances that allow us to tell our stories, we aim to inspire and empower Chinese communities in the US, and contribute to the diversity of American culture. We will tell the stories of the Chinese people, and offer a platform for Chinese American actors to share their unique voices on stage.
